Subject Siltronic - Performance Monitoring Data through September
09

Dana – Consistent with your request of September 8, 2009, the attached memorandum summarizes early performance monitoring data through June 2009 from full-scale implementation of enhanced *in situ* bioremediation at the Siltronic facility. Installation was completed in July 2009. The analytical data are encouraging and confirm successful installation: RAO 1 (TCE below the injection threshold) has been achieved in 21 of the 23 source area PMWs.

The data are attached as a MS Excel file. A hard copy of this memo and CD with the data will follow.

Please let me know if you have any questions regarding this memo or the attachment.
